Product Overview

Easy Secure Backup makes instant online backups whenever your files change. There are no procedures to follow. No schedules to set. Simply set it and forget it. You'll never have to worry about your back up again.

Online Backup Features

Extremely Secure

- Bank grade encryption protects your data
- All data is encrypted before it leaves your PC
- Only you have the key to access your web storage data

Affordable Pricing

With our online file back up system you can store as little or as much as you need.

- Data backup from just **R50.00p/m per 1GB** or
- Uncapped ADSL Data Bundle and backup from just **R299.00p/m**
- This is about as **Easy** as we could make it

Fast Recovery

- Restore lost files from your secure online file backup system in a matter of seconds

System Requirements

Easy Secure Backup runs well on any Windows PC with an internet connection

Features & Benefits

Our **Easy** to use backup software continuously monitors your selected files, backing them whenever they change. You'll probably never notice that the backup software is running. The backup process only happens when your PC is idle. The process will resume later on, picking up exactly where it left off.

Easy Secure Backup is the most effective online backup

Continuous Backup

- Your files backup automatically as you change them
- Backup pauses while you're typing, continues when you're not
- Backups are automatic and will never interrupt your work

Secure Offsite Storage

- Your data is stored offsite in a state of the art data centre
- All data is encrypted before it leaves your PC
- We use the strongest encryption available

Set It and Forget It

- No files to upload
- No tasks to remember
- Once installed, the backup client does it automatically
- If your backup fails, you will be automatically notified via email

File Versioning

- Keeps multiple versions of each file
- Restore older versions of a file even if you have made changes
- Restore files even if you've deleted them from your hard drive

SECURE - BACKUP - RECOVER
